

# JEFF COSCO

AMERICAN SINGER - SONGWRITER

After a long sabbatical from music, and a relocation from Western NY to Raleigh NC, I have rekindled my 'love affair' with music, and it feels so good to be back in my studio and performing again!

It is so refreshing to be recording whatever I am inspired to write. I have been putting my heart and soul into my music and am excited to be releasing new material.

My career in music has been a long and fruitful one, having been heard on numerous recordings and in thousands of performances with my bands across the country. I have released 6 rock albums over the years and have worked with international and national ad campaigns featuring my voice on television and radio for DISNEY, HBO and various other local and national advertising agencies. I am also proud to have been a featured soloist with the world-renowned Rochester Philharmonic Orchestra in Rochester NY

I am grateful for the chance to rekindle my love for music and to share it with the world again. It is a joy and a privilege to be back in the studio and to be creating the music that I love. I am looking forward to solo acoustic performances of my songs and classic favorites!
